3D Printing

3D Printing

3D printing is a technology that scientists and engineers are using to change the world. Put that same technology into the hands of your students and introduce them to some of the challenges facing your community. They will learn empathy, teamwork, and problem solving as you set them loose on a real-world problem.

What we do in 3D Printing?

- Dream House
- Wind Mill
- Bubble Blower
- Paddle Boat
- Solar System
- Balloon Race Car
- Catapult
- Prosthetic Hands
..and MANY MORE!!
