

Artificial Intelligence

Artificial Intelligence

Artificial Intelligence has always been a term which intrigues people all over the world. Artificial Intelligence (AI) refers to the ability of machines to perform cognitive tasks like thinking, perceiving, learning, problem solving and decision making; it is inspired by the ways people use their brains to perceive, learn, reason out and decide the action.

What we do in Artificial Intelligence?

- Machine Learning
- Deep Learning
- Python
- Tensor Flow
- Algorithms
- Neural Network
- Computer Vision
- Chat Bot
- ..and MANY MORE!!
